

Team 1: CZS

Team members Name: Chen Yu, Sang Dean, Zacham Pham

Contributions:

Chen Yu:

1. Create Activity diagram for group.
2. Finished Utilities.hpp, Utilities.cpp, AudioManager.hpp, AudioManager.cpp file for group project.
3. Wrote and fix some code in Enemy.cpp, Enemy.hpp, Game.cpp, Game.hpp file help to adapt edition could make enemy and game show in the project.
4. Wrote Main.cpp file and every time when new files being added by group member adapt code to linked and implement these files.
5. Create the new appearance for enemies and house for our group project.
6. Obstacles need to overcome: next step want to make the enemies move close to house , add suitable background music and make the background of game more beautiful. (like add some other small trees, flowers, make enemies have different types, adjust the size of the game window and so on)

Sang Dean:

1. Create UML diagram for group.
2. Finished Enemy.Cpp, Enemy.Hpp file.
3. Finished Game.Cpp and Game.Hpp file (which is Zacham's assignment have segment fault then Sang do all of these two file from beginning)
4. Doing UI.hpp, UI.Cpp in progress

Zacham Pham:

1. Code WaveManager.Cpp, WaveManager.Hpp.
